

ENGINEERS MEET HERE FROM ALL PARTS OF WORLD

Princes of Royal Blood Delegates to International Convention.

WELCOMED BY GOV. DIX

Distinguished Gathering to Discuss Materials Used in All Construction.

Gov. Dix officially welcomed to-day two expert engineers, representing twenty-seven foreign countries, who are attending this week the six international congress of the Association for Testing Materials, which is being held in the Engineering Building at No. 23 West Thirty-ninth street.

The congress was called to order by Gen. H. M. Howe, Acting President of the Association, after which addresses of welcome were made by Gen. William H. Dix, Chief Engineer of the United States Navy; Robert W. Hunt, President of the American Society for Testing Materials; and Gov. Dix, on behalf of the State of New York, who was followed by Comptroller Frederick J. B. Smith.

The assembled delegates from all parts of the world are in many instances titled foreigners. Over 100 are experts of international fame. Russia sent to officially represent her two colonels of artillery and two princes of royal lineage—Prince Gagarin and Prince Boris, both sons of the imperial court at St. Petersburg.

The foreign representatives all attended in civilian dress. Careful consideration was shown to all alike by the engineers composing the reception committee, so that no foreign representative could feel he was being slighted in any manner.

MANY DELEGATES WERE PRESENT WITH THEIR WIVES.

Many of the delegates from the United States brought their wives, who were present, and were entertained by the Ladies Committee.

For an army man, Gen. Dix's address caused smiling approval because of its peaceful tendencies.

"President Taft," said the General, "has always taken great pleasure in attending and assisting all Congresses which have for their object the promotion of peaceful arts throughout all the nations of the world. He believes that the natural progress of the world should be toward a point where the best defense of any country against its neighbor will be the strength of their mutual manufacturing, commercial and personal interests."

"When you foreign members leave this country we hope that you will carry with you a firm conviction that the United States in its daily work is looking forward to a time when all countries shall have ideals equally worthy and in harmony with each other, methods of work as perfect as allowable under their differing local conditions, and internal relations such as belong to a common brotherhood having in view the best results to the world as a whole."

TELLS OF PURPOSES OF GATHERING.

H. M. Howe, the acting President of the international association, made a lengthy address in which he carefully outlined the purpose of the testing engineers.

"Our purpose," he said, "is to serve humanity by enabling it to distinguish the fit from the unfit among the materials from which the world's work is done, the materials for its buildings, its bridges, its ships, its railroads, its machinery and its construction in general."

After the formal convening of the delegates in the Auditorium, Gov. Dix and many of the guests were escorted by H. J. F. Rogers, in charge of the Entertainment Committee, to the American Museum of Safety on the sixth floor of the building. The Governor, after looking over the most modern safety appliances sent from all parts of the world, attended a luncheon given in his honor at the Engineers' Club.

The Purchase of Your Boy's School Clothing

Should not be delayed. Within less than a week's time the schools will begin to re-open. Everything in the way of Suits, Coats, Shoes, Hats and Incidentals that is good and good-looking is here. It is to the uniform dependability of our stocks and low prices that we owe the distinction of outfitting more boys than any other specialty or department store in New York. The Boys' Store on our second floor specializes in clothing from sizes 2½ to 18 years. Most of the 18-year boys we clothe have been Macy-clothed from their earliest years.

Mixed Cheviot Suits at \$4.96 Have Two Pairs of Trousers

We took advantage of the last dull season to have a stock of these made up in all-wool chevions, gray and brown mixtures. They are in every way the equal of standard \$6.00 School Suits.

Sizes 2½ to 10 years Sailor and Russian Blouse Suits.
Sizes 6 to 14 years are Norfolk Suits.
Sizes 8 to 17 years are Double-breasted Sack Suits.
Every Suit has two pairs of full-lined knickerbockers, which for practical purposes double the life of the Suit.

Six Styles of Suits at \$6.49 All of Which Have Extra Trousers

These are in sizes 6 to 18 years. Materials are fine wool chevions in gray, tan or brown, and in durable English corduroys in light gray, dark gray and brown. Made single or double-breasted Norfolk Jackets, and two or three button plain double-breasted Suits.

Sizes 6 to 15 years in the Norfolk models.
Sizes 11 to 18 years in the Sack Coat models.

Boys' Shirts, Blouses, Neckwear, &c.

Pajamas, 59c to \$1.29

White or striped madras or flannel, extra full cut, 8 to 16 years. The same sizes in imported French flannel, \$1.98.

Shirts and Blouses, 68c, 96c and \$1.39

White or colored madras, full laundered. The Blouses have either neck band or attached collar and are in sizes 6 to 16 years. The Shirts are in sizes 12 and 14 years.

Many New Styles in Hats for Large and Small Boys

Women's Suits New Autumn Models

With but one exception, all have the stunning long coats which are a pronounced fashion departure of the coming season. This substantial style, developed in such substantial materials as diagonal and the new wool, eponge, is a good choice for the woman whose clothes have to last long and look well.

Diagonal Tailored Suits, \$26.74

Shown in the illustration. The cutaway coat has a modified basque, and velvet collar, cuffs and buttons. Front of panelled corselet skirt has overlapping circular folds following the lines of the coat. Gray, mouse, brown and black.

Choice of Two Tailored Suits, \$32.74

Wool Eponge Suits; cutaway coat, with velvet collar, piped buttons and buttonholes and circular outside pockets. Corselet skirt is tucked a little on the hips and has circular fold running down front and back. Colors are brown, old blue and black.

Man-Tailored Suits, of imported wide wale cheviot in navy, brown and black. The straight single breasted short coat has messaline lining and bone buttons. Straight folds finish front and back girdled skirt.

Copy of a Suit by Bernard, of Paris, \$32.74

This is of wool eponge, which is enjoying a great vogue abroad. The coat, which gathers into a modified basque at the back, has a velvet Robespierre collar, with faille Francaise cravat matching the broad revers. Three inverted pleats run down one side of the corselet skirt.

Women's Underwear at 49c

Usual Price for this Quality Elsewhere is \$1.00

We Are Now in the Second Week of the

Semi-Annual Cut Glass, China and Housefurnishings Sale

Our prices, already "lowest-in-the-city," have been reduced to the limit for this Special Occasion. Our stock of China and Glass on display and accessible for selling is larger than the combined stocks of all the other Department Stores in New York City.

New York is flooded with inferior China and dull, lustreless Cut Glass. Macy's fine Crystal ware, cut in our own factory—the only one of its kind in New York—is unsurpassed for brilliancy, depth of cutting and beauty of design. Macy's China, produced in our own factories in Rudolstadt, Limoges and other famous centres, is universally known for its beauty and delicacy of design and ornamentation, and for its consistent high quality.

We solicit every comparison, secure in the conviction that our goods are first-grade, our stocks larger, and their prices lower, than may be found anywhere else in New York.

In Housefurnishings, Savings to meet the enthusiastic approval of every housekeeper.

We are the only Department Store that never allowed "Seconds" of Enamel Ware to be sold, because they are dangerous to health.

Girls' School Dresses at \$3.96

White wide wale pique. Square neck and short sleeves are formed of white embroidery insertion, which also extends down the center to the hem in panel effect. Pleated skirt. Ages 8 to 14 years.

Thirty-two Children's Coats, Now \$3.96 Formerly \$5.94 to \$10.74

In broken sizes from 4 to 14 years, in navy, tan and white serges, mixtures and eponge. Simple styles that will be in good taste for next as well as this season.

Misses' Diagonal Top Coats, \$17.74

Black only in the diagonal fabric; Oxford and brown also in new mixtures. Cut on straight, youthful lines, with semi-belted back and velvet facings on the cuffs and muffler collar. Guaranteed satin lining to waist depth.

Finer Misses' Coats in regular stock ranging up to \$39.74.

Second Floor, 35th Street.

Macy "Right Shape" Shoes For Misses and Children

"Equal Rights for Every Toe"

The Shoes that children and young girls wear to school are a more than ordinary important factor in their health and comfort. Every toe in a RIGHT SHAPE Shoe has its required room for normal, natural development. The result is an entire absence of fatigue as well as complete freedom from pedal ailments to which young people are subject.

Adults who walk in discomfort frequently attribute their trouble to having worn painful Shoes as children. The child's comfort should never be sacrificed to mere appearance.

"Right Shape" Shoes were designed especially to meet the demand for a good-looking Shoe and an easy-wearing Shoe in one.
